

Well water systems typically operate out of sight, out of mind.

A failure can come as a surprise with unplanned costs for homeowners.

COMMON CAUSES FOR WELL WATER PUMP FAILURES

- ◆ Dry Well
- ◆ Pressure Tank Malfunction
- ◆ Pump Blockage

Avg cost for well pump replacement¹

\$869 - \$2,299

UP TO **\$3800+**

Additional costs for well water system repair²

To keep your water flowing when and where you need it most throughout your home, you should take control and make this critical system more visible.

Monitor your water system round-the-clock with Pentair Pentek® Well Defender technology.

Whether you're at home or away, take advantage of well water system intelligence at your fingertips.

TIMELY ALERTS

Detect issues and send alerts through Pentair Home App for common well water system problems like tank malfunctions and pump dry run.

SMART SHUTOFF

Triggers pump shutoff when potentially damaging conditions are detected (dry well, pressure tank failure or pump blockages).

ATTAINABLE IoT

Transform your existing well water system or enhance a new system with affordable smart monitoring. Compatible to use with any well water system that has a pressure switch with a pump rated up to 12A.

Ask your local well professional or contractor for more details!
